KaVo Dental Excellence

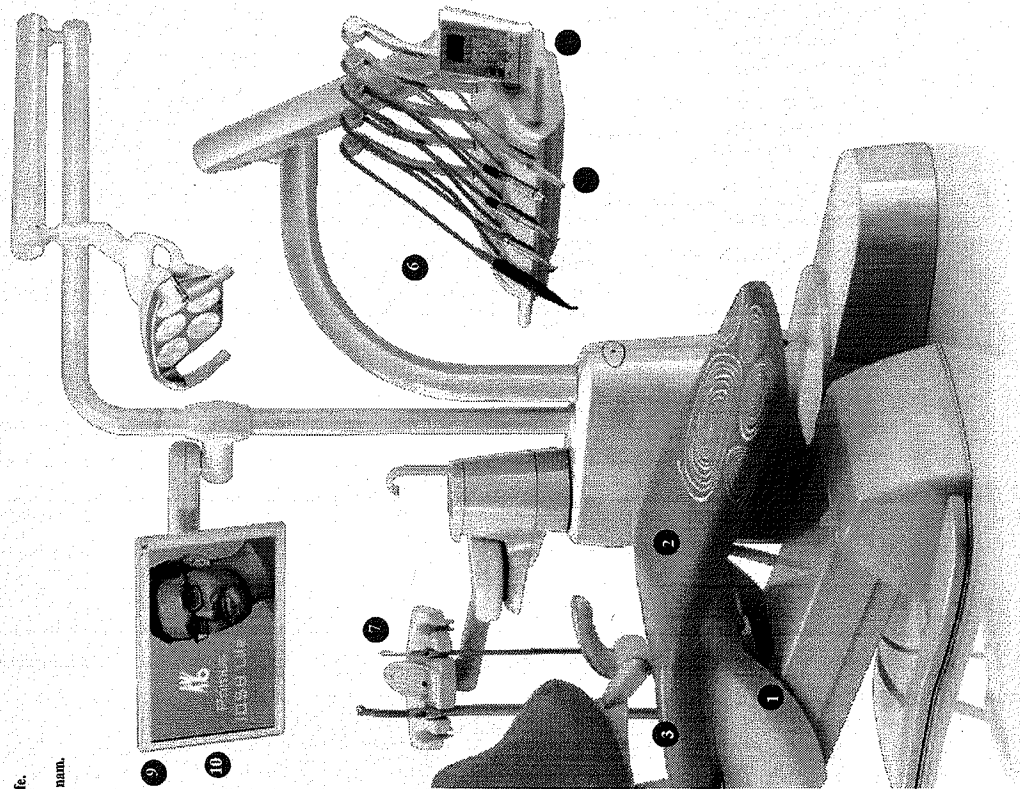

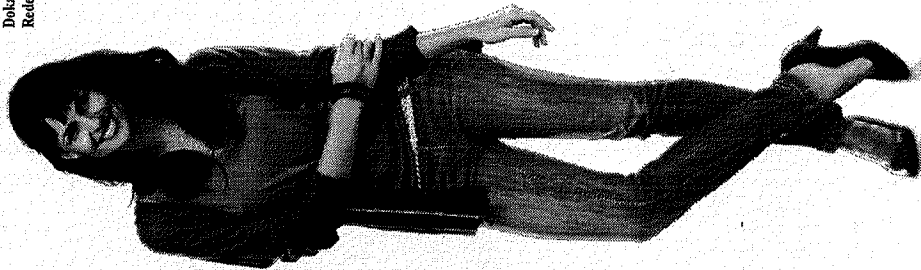

Pouzdan, svaki dan..

Provjereni kvaliteta, redefiniran.

Bez obzira na izazov s kojim ste suočeni, znate da možete vjerovati vašem Primus 1058 Lifeu. Uživate u iznimnoj pouzdanosti u svakodnevici vaše prakse. Primus 1058 Life je dizajniran s glavnim naglaskom na funkcionalnoj pouzdanosti i ekonomskoj učinkovitosti - danas

i sutra. Pokažite vaše sposobnosti za identificiranje izvrsne vrijednosti za novac i pridružite se tisućama stomatologa diljem svijeta koji izjavljuju da njihovi Primus 1058 "traje i traje i nastavlja raditi".

KaVo Primus 1058 Life.
Dokazana kvaliteta.
Redefiniran. Vjerujte nam.

Sve inovacije na prvi pogled:.

Nova stolica za pacijenta. Sigurna i opuštena.

1. Moderniji dizajn stolica u modernoj stomatološkoj bijeloj boji
2. Maksimalno opterećenje do 185 kg
3. Integrirani Trendelenburg pokret za udobnost pacijenta
4. Produžene najviše/najniže pozicije

Novi elementi za stomatologa i asistenta. Sofisticiran i pufjed nastavljen.

5. Novi element za stomatologa u modernom dizajnu
6. Unaprijeđen operativni koncept uključuje više gumba za izravan odabir
7. Element za asistenta koji uključuje jasno strukturiranu tipkovnicu i poboljšanu radnu udobnost

CONEXIO sustav za komunikaciju s pacijentom. Spreman za rad.

8. KaVo ERGOcam One, intraoralna kamera jednostavna za korištenje
9. Novi KaVo ekran visoke rezolucije, 19" i 22"
10. Novi CONEXIO softverski sustav kombinira softver za upravljanje pacijentima, arhivu 2D radiograma i dinamične intraoralne slike u koncept rada.

Novi element za stomatologa. Sofisticiran, pojednostavljen.

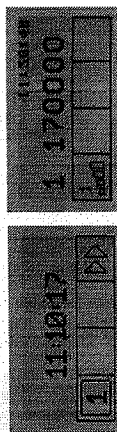

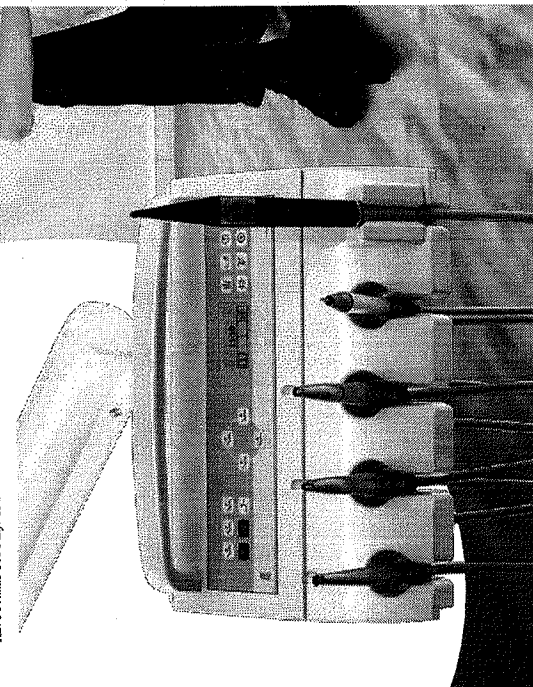

Jednostavno, savršeno dizajniran za vas.

Konfigurirajte svoj element za stomatologa da savršeno odgovara vašim zahtjevima. Možete slobodno konfigurirati pet jedinica nastavaka i još uvijek napraviti izmjene kasnije. To vam omogućuje fleksibilnost za budućnost.

Nema zaobilaznice, ravno do cilja.

Više izravnih tipki za automatske funkcije, pomoći će vam uštedjeti vrijeme. Jednostavno održavajte pregled s novim jasno strukturiranom tipkovnicom i integriranim zaslonom.

Verzija stola
KaVo Primus 1058 Life TM.

Novi zaslon uključuje timer-1
doba dana.

Koristite MEMOpred da brzo i
pouzdatno pozovite pohranjene parametre
za svaki nastavak.

Dogovoreni element za stomatologa – naša tri dokazana modela.

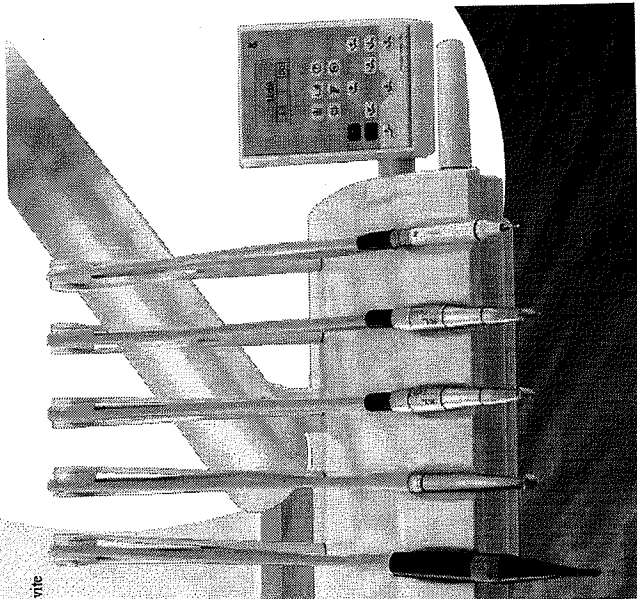

Tri verzije visokokvalitetnog elementa za stomatologa su dostupne za optimalnu prilagodbu individualnim potrebama i postupcima liječenja.

- **Verzija stola.**
Još više slobode kretanja za ergonomske radne tehnike u bilo kojem položaju liječenja.
- **Verzija sa zakretnim krakom.**
Bolje produžena dužina i higijenski voditi crijeva pomaže dobro uravnoteženim nastavcima da leže savršeno u vašoj ruci.
- **Verzija kolica.**
Više mobilnost u kombinaciji s jednostavnim radom. Samo stavite kolica u stranu kada je to potrebno.

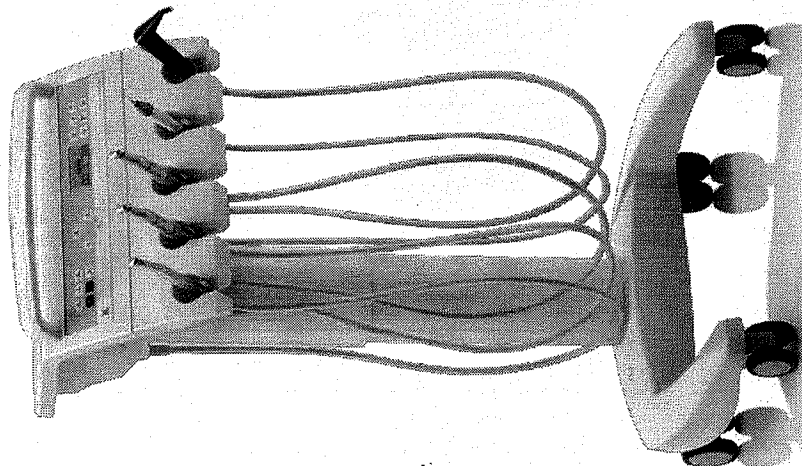

Ergonomska učinkovitost svaki dan.

Bez obzira da li izvodite tretman sjedeći ili stojeći, element za stomatologa Primus 1058 Life vas podržava svojom sofisticiranom ergonomijom. Izbjegavajte istezanje ili uvijanje. Optimiziran pristup osigurava učinkovite procese.

Verzija sa zakretnim krakom
KaVo Primus 1058 Life S.

Verzija kolica
KaVo Primus 1058 Life C.

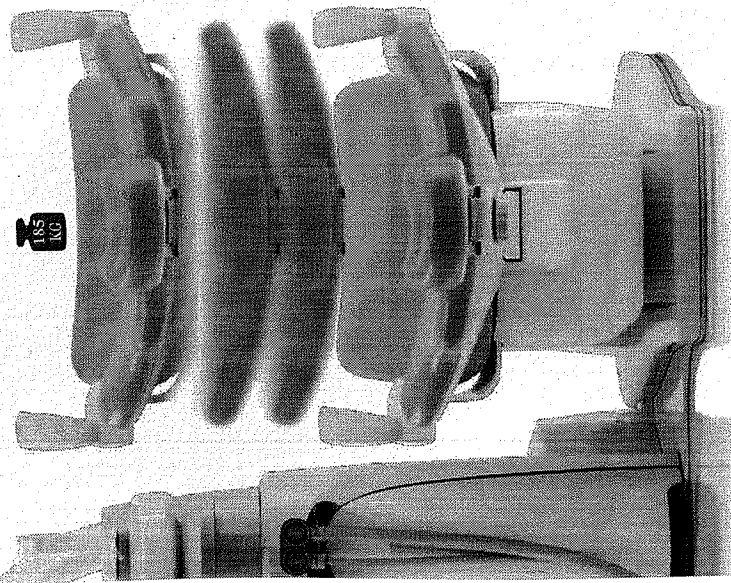

Nova stolica za pacijenta. Sigurna i opuštena.

Opušteni pacijenti štede vaše dragocjeno vrijeme.

Ako se pacijenti osjećaju ugodno na stolici za pacijenta, oni se manje kreću. Novo dizajnirana mekana i ergonomski presvlakana omogućuje značajan doprinos tom cilju. To vam omogućuje da radite mnogo efikasnije i da se u potpunosti usredotočite na liječenje.

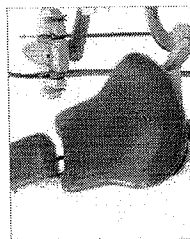

Idealno za sve zahvate s poboljšanim
nagibom i najnišom pozicijom, kao i
većom maksimalnom težinom pacijenta.

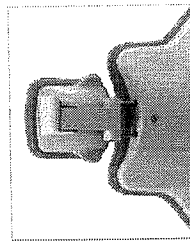

Dobro za vas.

Dobro za vaše pacijente.

Prilagodite fleksibilan reverzibilni jastuk i naslon za glavu s dvostrukim zglobovima optimalno veličini pacijenta. Ako je vaš pacijent dobro pozicioniran, možete raditi udobno.

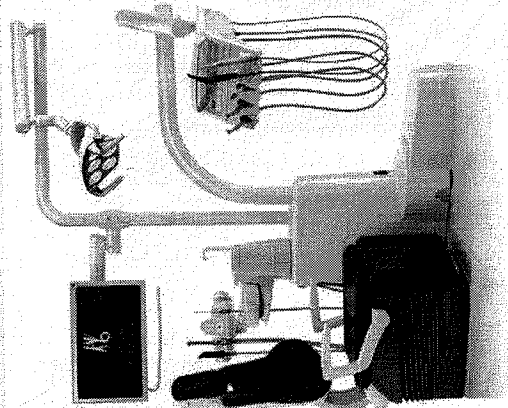

Progresivni naslon za leđa:
Optimalno radno držanje i optimalan
pristup stomatologu.

Jednostavno udoban:
naslon za glavu s dvostrukim zglobovima
može se podesiti samo s jednom
rukom i ima rotirajući jastuk glave.

830 mm

350 mm

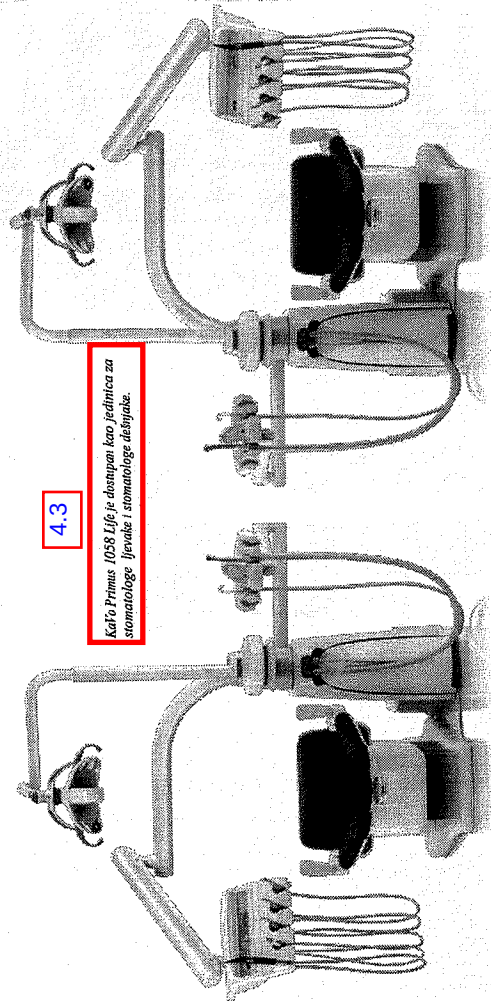

COMPACTchair – Komfor čak i u ograničenim prostorima.

Pružajući pacijentu udoban način ulaska u i iz stolice pacijenata, a posebno je korisna za starije osobe. COMPACTchair ima površinu za stopala i može se pomicati kontinuirano od sjedećeg položaja 80° do ležećeg položaja. Porazgovarajte sa pacijentom kad je u sjedećem položaju, a liječite ga kad je u ležećem položaju. COMPACTchair je također idealan za male stomatološke ordinacije.

Solica za pacijenta COMPACTchair. Podesiva visina od 390 mm do 740 mm.

4.3

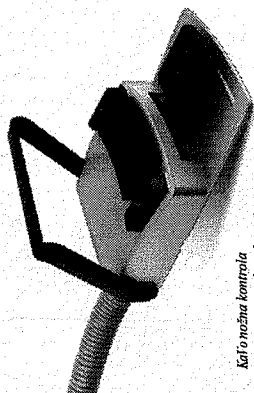

KaVo Primus 1058 Life je dostupan kao jedinica za
stomatologe i ljekovke i stomatološke ordinacije.

Prednosti od više fleksibilnosti.

Neka vaše ruke budu slobodne za važne stvari.

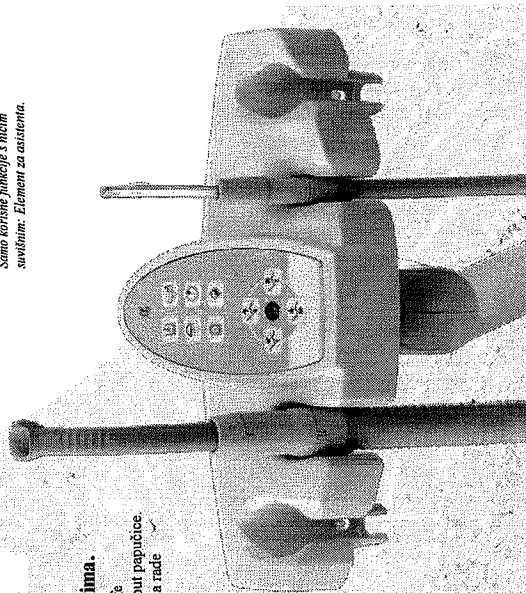

Što manje dirate, više higijenski možete raditi. Samo kontrolirajte funkcije svojih nastavaka i stolice nogom. Učinkovita mjera opreza protiv kontaminacije.

KaVo nožna kontrola omogućuje vam da radite još opuštenije

Ergonomija se temelji na pametnim rješenjima.

Upravljanje nožnom kontrolom vašeg Primusa 1058 Life horizontalno - nogom, pomicanjem noge gore i dolje poput papučice. Drugotično, to opušta mišice nogu i omogućuje vam da radite potpuno opušteni.

Samo koriste funkcije s nišnim svjetlom. Element za asistenta.

Vaš stomatološki asistent je siguran pod kontrolom.

Prebacite se na radni tijek bez problema. Element za asistenta Primus 1058 Life može se postaviti individualno kako bi vaš stomatološki asistent imao optimalan pristup pacijentu u svakom trenutku. Novo jasno strukturirano sučelje sada uključuje više izravnih tipki za odabir. Npr. za intenzivno smanjenje klica, HYDROclean ili tajmer.

Fleksibilni partner uz vas..

Viđanje liječenje kao lijevak ili samostalno? Želite ponuditi vašem stomatološkom asistentu udobno rješenje? Novi element za asistenta je dostupan u verziji koja se zakreće ulijevo i u desno..

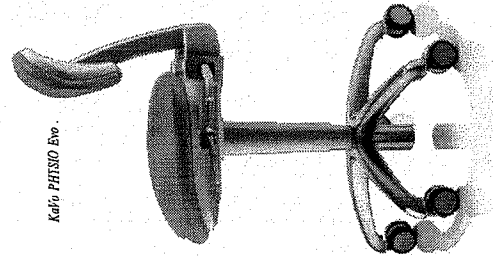

Radi se o vašim leđima.

**Zdravlje je
najvažnije.**

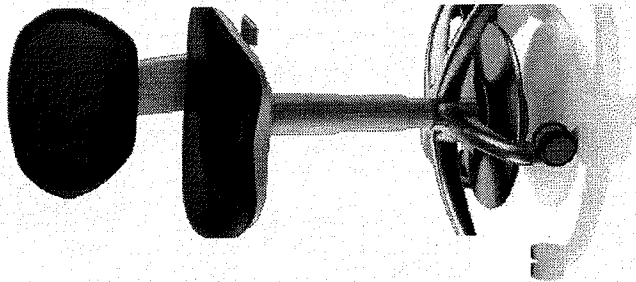

Ništa ne utječe na vaše držanje tijela kao radna stolica koju koristite svaki dan. Oslonite se na naše inteligentne koncepte stolica za vaše zdravlje. Dizajnirane za optimalnu ergonomiju i udobnost, usmjerene na potrebe i rad stomatologa i stomatoloških asistenata.

**KaVo PHYSIO One – Gdje cijena
zadovoljava performanse**

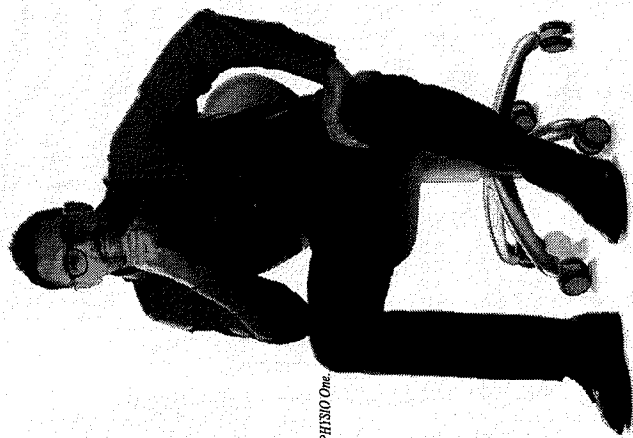

Pouzdana kvaliteta KaVo i obrada materijala visoke kvalitete - u izvrsnom omjeru cijene i performansi. Prilagoditi varijabilno i individualno podešavu visinu sjedala i nagiba brzo i jednostavno u skladu s vašim potrebama.

KaVo PHYSIO One.

KaVo PHYSIO Evo F.

KaVo PHYSIO One.

Stranica 5 od 9
Broj-OV: 0398/2016
Datum: 27.06.2016.

**KaVo PHYSIO Evo / Evo F –
Ergonomija je stvar detalja.**

Imate visoke zahtjeve za vaš ergonomski sjedeći položaj? KaVo PHYSIO Evo / Evo F vam omogućuje da zasebno prilagodite površinu za sjedenje naslon tako da odgovara vašim anatomskim zahtjevima. Elastična sila naslona podržava lumbalne mišiće kralježnice za otpuštanje stresa tijekom liječenja.

Izvrstan koncept.

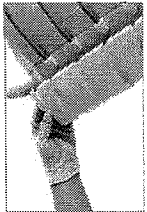

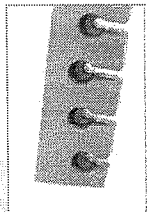

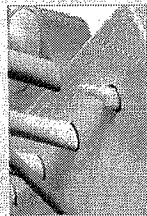

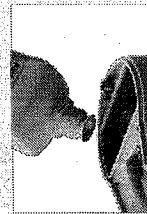

KaVo PHYSIO Evo je nagrađen početnom odobrenja njemačke udruge "Kampanja za zdravlje leđa" (AGR). To se temelji na strogim kriterijima ispitivanja ergonomije i zdravlja.

Moderna higijena. Jednostavan. Siguran.

Čini dnevnu higijenu još učinkovitijom..

Your Primus 1058 Life je vrlo jednostavan za čišćenje. Glavne komponente, kao što su silikonska podloška, držač ladice, nosač zakretnog traka i zadrživač plivajućeg se, jednostavno odvajaju radi dezinfekcije. Sve površine i kontaminirani dijelovi u području odlaganja aerosola se lako čiste..

Higijena je olakšana. Trajno smanjenje ključa s dodatnim KaVo OXYGENAL 6 smanjuje proliferaciju algi i bakterija. Glavne površine i odvojni zaštitni poklopci i nosači ladice čine čišćenje lakšim.

Higijena je jednostavna. Sve površine su bez razmaka i stoga se lako čiste.

5.7

Iskoristite snagu vode s HYDROclean.

Sprječite vrijeme prekida i troškove vezane za servisiranje. Jednostavno aktiviranje, automatski HYDROclean program za čišćenje separatora analoga, usisavanja i odvođiva vašeg centra za liječenje. Čista, svježa voda razjedinjuje krv i izlučevine te sprečava taloženje nečistoća ili začepjenja usisnog sustava i odvoda.

Više zaštita zbog smanjenog učinka povratnog usisa.

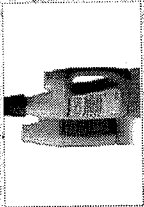

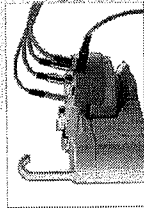

Automatski protu-povlačni ventil na KaVo nastavku i motorima sprječava da se kontaminirana voda usise u centru za liječenje kako bi se osiguralo da se vi, vaš tim, i vaši pacijenti osjećate sigurno.

Smanjite rizike pomoću RKI* programa ispiranja.

Sprječite infekcije, a također ispuniti zahtjeve sadržajnih RKI smjernica. Vaš Primus 1058 Life obavlja standardizirano i automatsko ispiranje nasadnih instrumenata na početku radnog dana i nakon svakog pacijenta.

Zaštitite svoje vodove od onečišćene vode.

Spiječite refleksnu kontaminaciju svog opskrbnog voda s DVGW certificiranim blokom vode. Smanjenje ključa s KaVo OXYGENAL 6 osigurava trajno smanjenje bakterija i ključa. Program intenzivnog smanjenja ključa štiti vaše pacijente od proliferacije mikroorganizama za vrijeme neaktivnosti, poput vikenda ili praznika.

Filterni sustav: Dovoljno je. Besprekorna kvaliteta tekućine za otvoriti ručica za higijenu da brzo smanjenje ključa i za vrijeme dužeg filtar.

Učinkovite vrijeme s prethodno mičkanim spremnik za korištenje KaVo DEKASEPTOL gelom. Spreman za korištenje gel ovlazuje usisne cijevi i usisne sustave i priprema na bitičnim hijestima, a ne prokati samo ravno bratitih.

* Robert-Koch-Institut

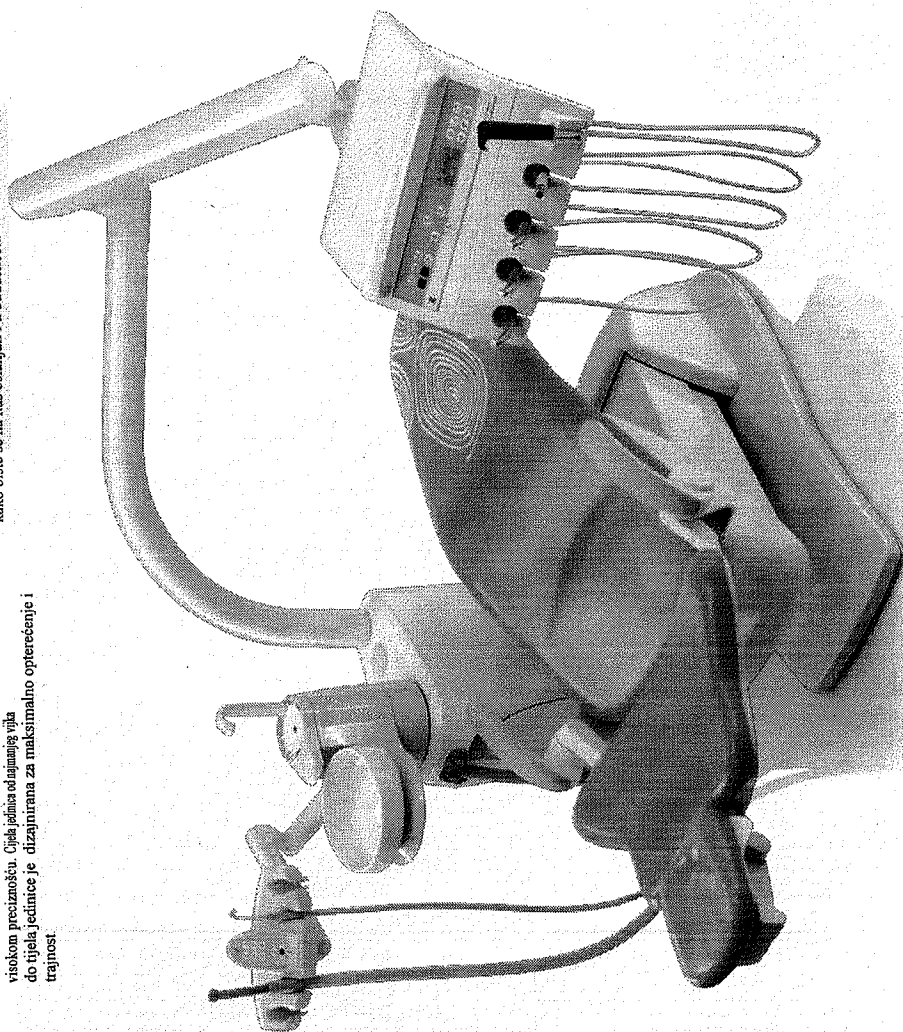

Kvaliteta

koja se isplati.

Dokazan tijekom vremena, više od 35.000 prodanih jedinica.

Primus 1058 je uvijek bio namijenjen za održivi snagu. Visoko kvalitetni sastojci koji odgovaraju jedni drugima su savršeno obrađeni visokom preciznošću. Čija jedinica od najmanje viša do tijela jedinice je dizajnirana za maksimalno opterećenje i trajnost.

Nasi proizvodi su podvrgnuti sveobuhvatnim ispitivanjima kako bi se osiguralo da oni izdržavaju svoje svakodnevne poslove, pomažući da se izbjegnu kvarovi ili druge skupe komplikacije i kako biste se na ras odlanjali i u budućnosti.

KaVo Primus™ 1058 Life

I rely on it.

KaVo. Dental Excellence.

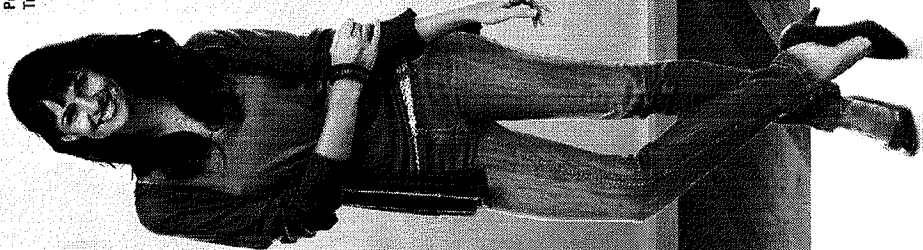

Reliable, every day.

Proven quality, redefined.

Whatever challenge you are facing, you know you can trust your Primus 1058 Life. Enjoy the exceptional reliability at your practice everyday. The Primus 1058 Life was designed with a major focus on functional reliability and pronounced economic efficiency - today

and tomorrow. Demonstrate your ability to identify excellent value for your money and join thousands of dentists throughout the world who report that their Primus 1058 "runs and runs and keeps running".

KaVo Primus 1058 Life.
Proven quality. Redefined.
Trust us.

All the innovations at a glance:

The new patient chair. Safe and relaxed.

- 1 More streamlined chair design in modern dental white
- 2 Maximum load up to 185 kg
- 3 Integrated Trendelenburg movement for patient comfort
- 4 Extended highest/lowest positions

The new dentist and assistant elements. Sophisticated and simplified.

- 5 New dentist element in a modern design
- 6 Improved operating concept includes more direct selection buttons
- 7 Assistant element includes clearly structured film keypad and improved operating comfort

CONEXIO patient communication system. Ready to go.

- 8 KaVo ERG0cam Onc, the easy-to-use intraoral camera
- 9 New high resolution KaVo screens, 19" and 22"
- 10 The new CONEXIO system software combines patient management software, 2D radiograph archive and live intraoral images in a unique operating concept

KaVo. Dental Excellence.

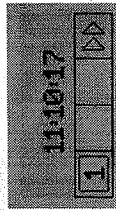

The new dentist element. Sophisticated, simplified.

Simple, designed perfectly for you.

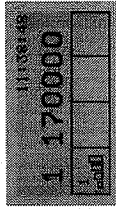

Configure your dentist element to perfectly match your requirements. You can freely configure five handpiece trays and still make modifications later on. This allows you flexibility for the future.

No detours, straight to the goal.

More direct buttons for automatic functions, help to save you time. Easily keep an overview with the new clearly-structured film keypad and integrated display.

The new display includes timer function and time of day.

Use MEMOspeed to rapidly and reliably recall stored parameters for each handpiece.

The bespoke dentist element – our three proven models.

Three versions of the high-quality dentist element are available for optimal adaptation to your individual needs and treatment procedures.

- The table version.
Even more freedom of motion for an ergonomic work technique in any treatment position.
- The swing-arm version.
Better extension lengths and hygienic hose guide, helps well-balanced handpieces rest perfectly in your hand.
- The cart version.
More mobility combined with simple operation. Just put your cart aside when needed.

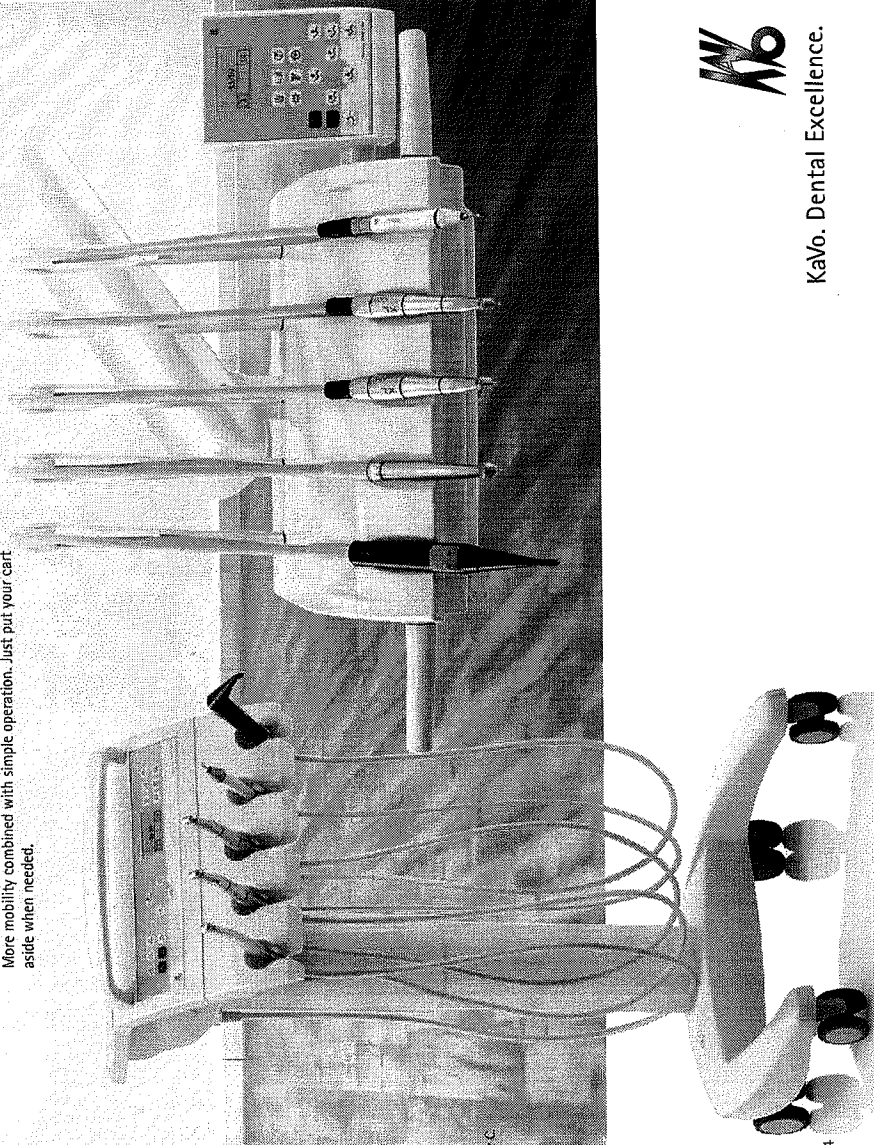

Ergonomic efficiency every day.

No matter if you perform the treatment sitting down or standing up: The dentist element of your Primus 1058 Life supports you through its sophisticated ergonomics. Avoid stretching or twisting. Optimized access assures efficient processes.

Swing-arm version
KaVo Primus 1058 Life S.

Table version
KaVo Primus 1058 Life TM.

Cart version
KaVo Primus 1058 Life C.

KaVo. Dental Excellence.

The new patient chair. Safe and relaxed.

Relaxed patients saves you valuable time.

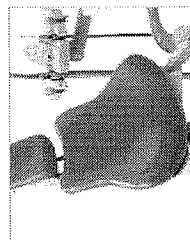

If patients feel comfortable on the patient chair, they tend to move much less. The newly designed soft and ergonomically shaped upholstery make a significant contribution to this goal. This allows you to work much more efficiently and to fully focus on the treatment.

Ideal for all requirements with improved highest and lowest position as well as higher maximum patient weight.

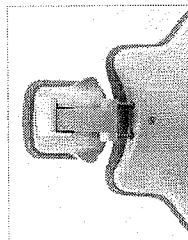

185 KG

Good for you. Good for your patients.

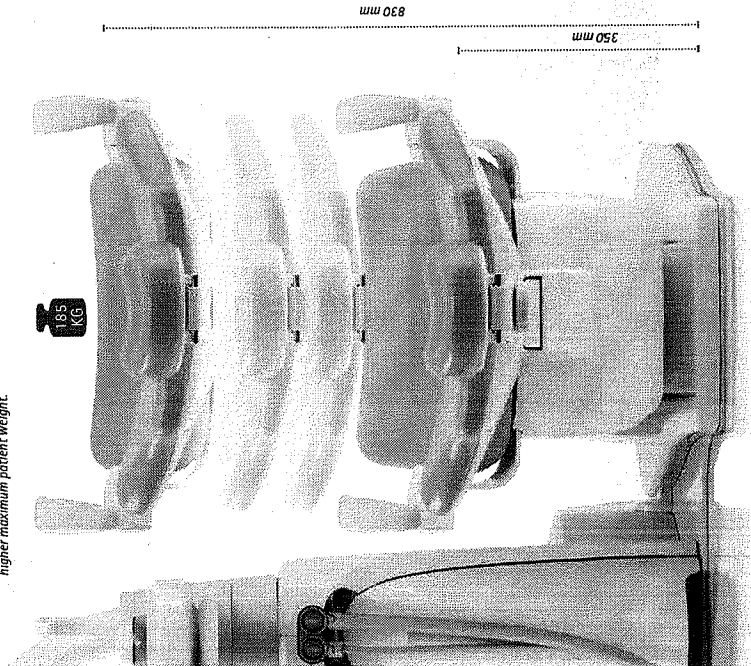

Adapt the flexible reversible cushion and the double-jointed headrest optimally for the indication or size of the patient. If your patient is well positioned, you can work comfortably.

Progress backrest: optimum working posture and optimum access for the dentist.

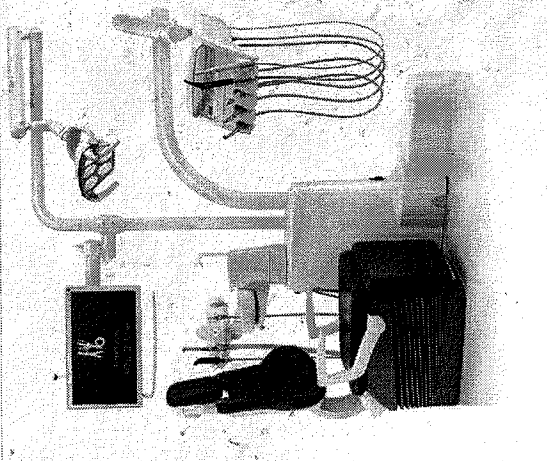

Simply comfortable: the double-jointed headrest can be operated with just one hand and has a rotatable head cushion.

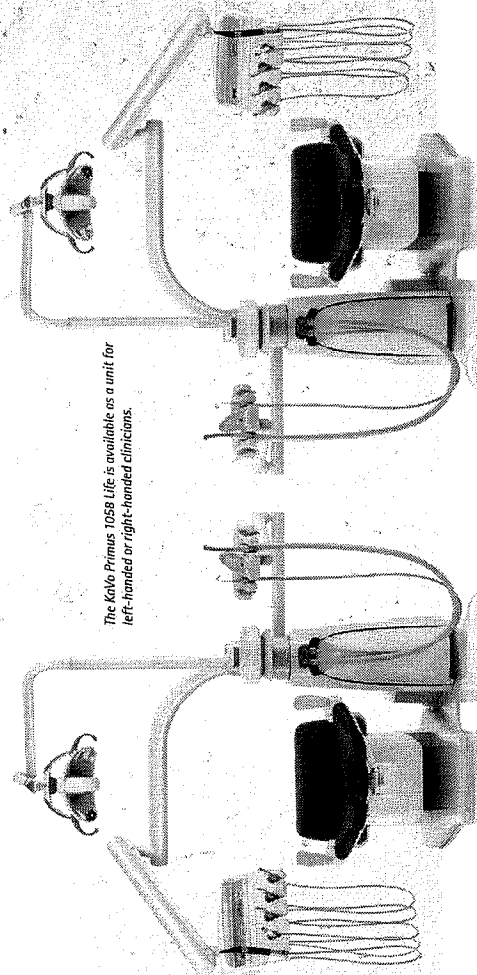

COMPACTchair – Comfort even in confined spaces.

Provides patients with a comfortable way of climbing into and out of the patient chair, and is particularly useful for the elderly. The COMPACTchair has an angling foot surface and can be moved continuously from 80° seated position to supine position. Talk to your patients while they are seated and then treat them while they are reclined. The COMPACTchair is also ideal for small dental surgeries.

Patient chair COMPACTchair. Adjustable in height from 390 mm to 740 mm.

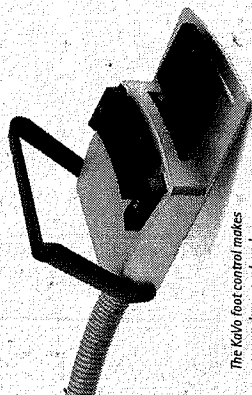

The KaVo Primus 1058 Life is available as a unit for left-handed or right-handed clinicians.

Benefit from more flexibility.

Keep your hands free for important things.

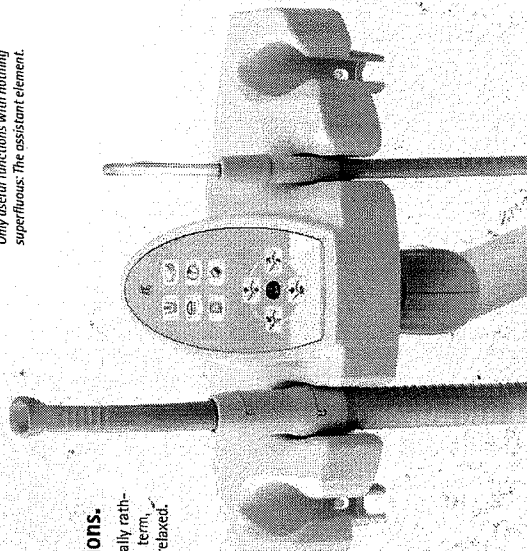

The less you touch, the more hygienically you can work. Just control your handpiece and chair functions by foot. An efficient precaution against cross-contamination.

The KaVo foot control makes your work more relaxed.

Ergonomics is based on smart solutions.

Operate the foot control of your Primus 1058 Life horizontally rather than up-and-down like an accelerator pedal. In the long term, this relaxes your leg muscles and allows you to work fully relaxed.

Only useful functions with nothing superfluous. The assistant element.

Your dental assistant is safely in control.

Switch to trouble-free workflows. The assistant element of the Primus 1058 Life can be positioned individually to allow your dental assistant optimal access to the patient at all times. The new clearly-structured interface now includes more direct selection buttons, e.g. for intensive germ reduction, HYDROclean or timer.

The flexible partner by your side.

You are performing treatment as a left-hander or alone? You would like to offer your dental assistant a comfortable solution? The new assistant element is available in both a right-swivelling and left-swivelling version.

It's all about your back.

Health counts most.

Nothing impacts your posture as much as the work chair you use every day. Rely on our intelligent chair concepts for your health. Designed for optimum ergonomics and comfort, focused on the needs and workflows of dentists and dental assistants.

KaVo PHYSIO One – Where price meets performance.

Reliable KaVo quality and processing of high-quality materials – at an excellent price-performance ratio. Adapt the variable and individually adjustable seat height and tilt quickly and easily to suit your needs.

KaVo PHYSIO Evo / Evo F – Ergonomics are a matter of detail.

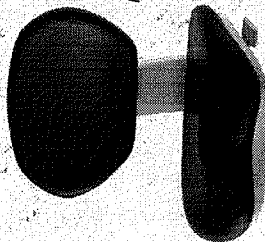

Do you have high demands on your ergonomic sitting position? The KaVo PHYSIO Evo/ Evo F allows you to separately adapt the seat surface and the backrest to suit your anatomical requirements. The elastic force of the backrest supports the lumbar spine muscles for sustained stress relief during treatment.

An excellent concept.

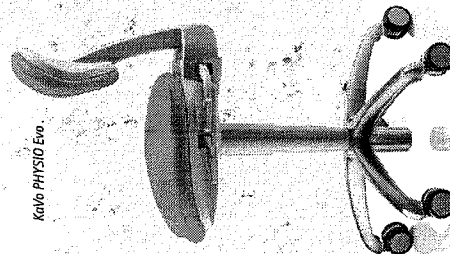

The KaVo PHYSIO Evo has been awarded the seal of approval of the German association "Campaign for Healthier Backs" (AGR). This is based on strict ergonomics and health test criteria.

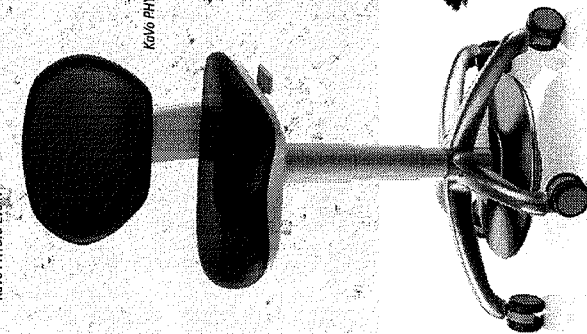

KaVo PHYSIO Evo F

KaVo PHYSIO Evo

KaVo PHYSIO One

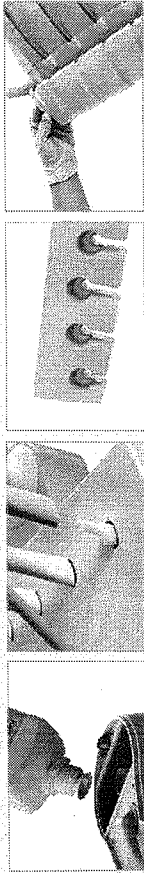

KaVo. Dental Excellence.

Modern hygiene. Easy. Safe.

Makes daily hygiene more efficient.

Your Primus 1058 Life is very easy to clean. Major components such as the silicone mat, handpiece tray, swing-arm bracket and spittoon bowl detach easily for disinfection purposes. All surfaces and contaminated parts in the aerosol-disposal area are easy to clean.

Hygiene made easy: Permanent germ reduction with added KaVo OXYGENAL 6 reduces the proliferation of fungi and germs. Smooth surfaces and removable protective covers and handpiece trays make cleaning easier.

Hygiene made easy: All surfaces are free of gaps and therefore easy to clean.

Make use of the forces of water with HYDROclean.

Prevent breakdown time and costs related to servicing. Simply activate, by hand, the automatic HYDROclean programme for cleaning of the amalgam separator, suction and drainage systems of your treatment centre. Clean, fresh water dilutes blood and secretions reliably and prevents the sedimentation of contaminants or clogging of the suction system and drain.

More protection due to the reduced back-suction effect.

An automatic anti-retraction valve on KaVo handpieces and motors prevents contaminated spray water from being aspirated into the treatment centre to ensure that you, your team, and your patients can feel safe.

Minimise risks by using the RKI™ rinsing programme.

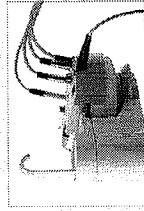

Prevent infections and also meet the requirements of the current RKI guidelines. Your Primus 1058 Life performs a standardised and automatic handpiece rinse at the start of the working day and after each patient.

Protect your lines from contaminated water.

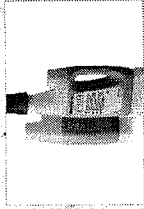

Prevent reflux contamination of your supply line with the DVGW-certified water block. Germ reduction with KaVo OXYGENAL 6 ensures permanent reduction of bacteria and germs. The intensive germ reduction programme protects your patients from the proliferation of micro-organisms at times of inactivity such as weekends or holidays.

Filter system: Just open the hygiene handle to quickly and easily change the intake filter.

The impeccable quality of the cooling and rinsing fluids guarantees intensive germ reduction even during extended downtimes.

Save time with the pre-mixed, ready-to-use KaVo DEKASEPTOL Gel. The ready-for-use gel with the suction hoses and suction systems and adheres to critical places, instead of merely passing straight through.

KaVo. Dental Excellence.

Quality that pays off.

Proven over time, more than 35,000 units sold.

The Primus 1058 has always been designed for sustained power. High-quality components that match each other perfectly are processed at high precision for this purpose. The entire unit, from the smallest screw to the whole unit body, is designed for maximum load and durability.

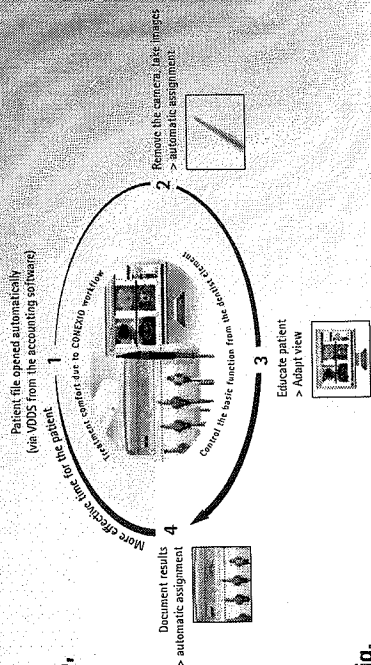

Our products are subjected to comprehensive tests to ensure that they withstand their daily workloads, helping to avoid breakdown or other costly complications and to ensure that you keep relying on us in the future.

CONEXIO joins what belongs together.

Whatever you intend to do, CONEXIO opens the way.

Control your patient communication conveniently from the dentist element and add new images directly to the digital patient file. The Primus 1058 Life combines with CONEXIO to offer you new opportunities.*

* CONEXIO is available as an option.

KaVo ERGOcam One – Small camera comes up big.

Illustrate the actual dental situation to your patients using the KaVo ERGOcam One images. High depth of field and outstanding colour reproduction.

Show it to your patients.

The new monitors feature convincing parameters such as high resolution image quality, high contrast values and brilliant colour reproduction. They can be controlled by the dentist element and adjusted with just one hand.

KaVo ERGOcam One –
Brilliant images made easy

KaVo Screen HD –
The perfect choice in full HD

- Full HD True Colour
- Aspect ratio: 16:9
- Screen diagonal: 22 inch
- Two digital inputs (interchangeable)

KaVo Screen One –
The high-quality version in HD

- HD-True Colour
- Aspect ratio: 16:9
- Screen diagonal: 19 inch
- Two digital inputs (interchangeable)

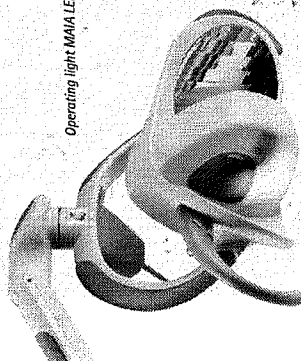

KaVo. Dental Excellence.

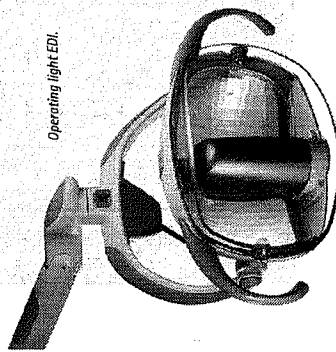

Equipment for a more efficient day at the office.

More comfort. More opportunities.

Get a head start each day with the office-oriented equipment options. The broad equipment range of the Primus 1058 Life affords solutions that are worth their money.

Operating light MAIA LED.

Operating light EDI.

Better light for optimum results.

The KaVoLUX 540 LED operating light generates natural white light of the highest quality and has a built-in hygiene advantage at your disposal. Switching the unit on and off without contacting it prevents cross-contamination and the closed housing, smooth surfaces and removable handles can be cleaned rapidly.

Highest performance at your disposal.

Experience what motors can do. Speed ranges from 100 to 40,000 min⁻¹ at 1:1 transmission ratio. Easy, compact design. Pleasant in your hand. These motors are powerful.

KaVo INTRA LUX KL 701 LED: Compact design, low weight. Low maintenance and highly reliable.

KaVo INTRA LUX KL 703 LED: Even smaller and even lighter with perfect weight distribution. Endless power. Makes your work fatigue-free.

High precision units for thorough tooth cleaning.

Work with high precision with the KaVo PiezoLED and PIEZOsoft ultrasonic scalers and save valuable time. Modern technologies for effective treatment of your patients. Due to the precise operation, teeth and gingiva remain undamaged even in delicate areas.

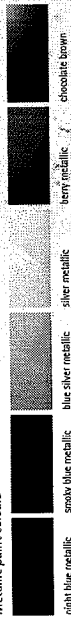

Scaler PiezoLED.

Scaler PIEZOsoft

Timelessly modern – Your favourite colour included.

Select from the large colour range and adapt your Primus 1058 Life ideally to your office settings. Combine the upholstery and instrument colours to suit your individual preferences.

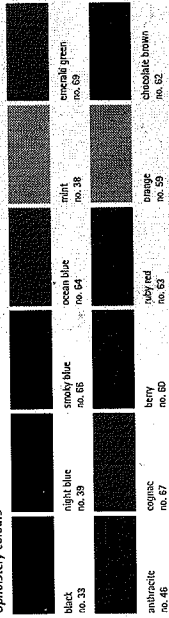

Metallic paint colours

Plain colours

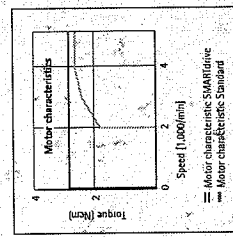

Upholstery colours

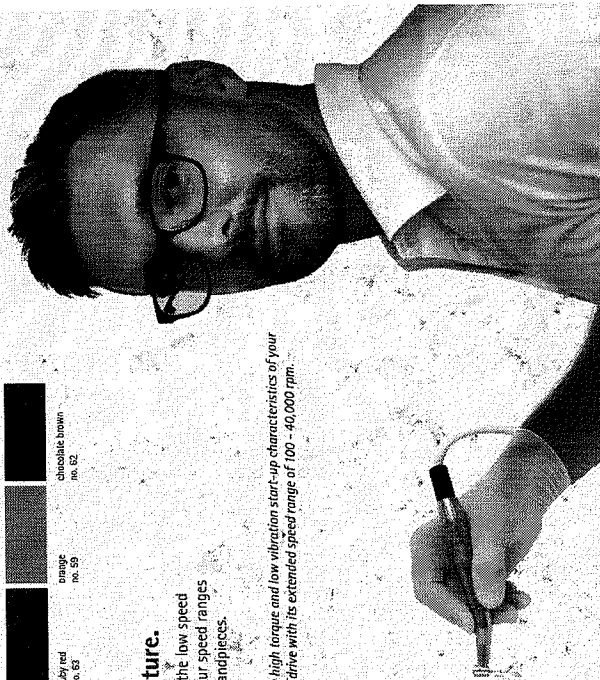

SMARTdrive. Power for the future.

Start with low vibrations and full torque even in the low speed range. The SMARTdrive motor control expands your speed ranges and thus the applications of your contra-angle handpieces.

Leverage the high torque and low vibration start-up characteristics of your KaVo SMARTdrive with its extended speed range of 100 - 40,000 rpm.
